

Do you suffer from Chronic Obstructive Pulmonary Disease? (COPD)

The Lung Centre at VGH is seeking volunteers who suffer from COPD. This research study will evaluate a new long acting investigational drug for patients with this disease.

To qualify, you must:

- be 40 years of age or older
- be a smoker or ex-smoker

There are 15 clinic visits over 54 weeks. The study will involve breathing tests, electrocardiogram (a painless tracing of the electrical activity of your heart), completion of questionnaires and blood tests at some of the visits.

The Principal Investigator for this study is Dr. J. Mark FitzGerald.

For more information, please contact the study staff at 604-875-4111, ext. 67915 (leave name & daytime number) or email lindahui@interchange.ubc.ca
